

Dear Families,

To help keep our students' reading skills strong over the summer, we're encouraging each child to **read 10-15 minutes a day**. To make it fun and engaging, each student is receiving a Summer Reading Log where they can color in a space for each day they read!

Here's how it works:

- Students choose books they enjoy (fiction, non-fiction, Bible stories, or even poetry!)
- They read for **at least 10-15 minutes each day**
- After reading, they **color one shape on the reading log**
- When school begins in the fall, they return the completed log

As a fun incentive, students who bring back their finished reading log will receive a special treat and be recognized during our first week of school for their dedication !

Thank you for encouraging your child to read and grow this summer. A few minutes each day can make a big difference—and it's a wonderful way to keep their minds active and hearts inspired.

Wishing you a safe, restful, and joy-filled summer!

God Bless,

Sandy Lesley

FPA Principal
